I urge you reject the NAB's petition 04-160. XM Instant Traffic & weather is very important to those of us who spend much of our time traveling in our vehicles. Continous broadcasting on pre assigned channels is so much better then searching the am/fm stations to try to catch the reports. This is a service we pay for and the station owners that are represented by the NAB should not have any say in it. they are just ticked because they are not geeting ALL the money.
